Summary

Passionate Senior Front End developer with 11 years experience building and maintaining responsive, accessible, and high traffic websites. Extensive experience with a diverse range of front end development languages and frameworks.

Experience

Senior Front End Developer Xcentium

March 2018 - May 2025

- ❖ Work with a large range of clients to build and maintain enterprise solutions on an aggressive timeline.
- ❖ Architect and develop reliable, scalable, and maintainable front-end solutions with a variety of different technologies.
- ❖ Extensive experience in efficient project ramp-up times; usually involving a diverse range of solutions with varying frontend technologies.
- ❖ Establish and maintain strong and honest working relationships with clients, colleagues, and stakeholders.
- ❖ Design, develop, and maintenance of a Node.js Command Line Interface; which is used to allow rapid building and release of front-end architectural solutions from a choice of frameworks.

Senior Web Developer ARI Network Services, Inc.

May 2014 - Oct 2017

- ❖ Implemented internal tool sets using a Node.js build process implementing both Angular and Vue.js.
- ❖ Was responsible for updating and maintaining sass themes which were used as a starting point for the web development team to quickly and efficiently build industry standard websites.
- ❖ Founding member of a standards, documentation, and implementation team; which established a consistent standard operating procedure across diverse, cross-functional teams to improve technical implementations, work communication, and efficiency.
- ❖ Utilizing Agile methodology and strong communication, I became an integral part of the development of ARI's first responsive platform.

Website Developer Intern Arrowhead Chorale

September 2013 – December 2013

- ❖ Updated, organized, and translated new information provided by Arrowhead Chorale into a digital and user friendly and more accessible format to be displayed on their website.
- ❖ Coordinate with the director of Arrowhead Chorale to effectively meet the group's requirements.
